## TEMBURONG

The call of a proboscis monkey. The thrill of a speedboat cutting through jungle waters, Unspoiled, Untamed. Unbelievable Early European explorers told tales of the exotic wonders found on the island of borneo. Rare orchids with blooms as large as dinner plates. Elusive monkeys with long, curved noses. Rivers that snake through uncharted forests. And green verdant shades never seen before. This is temburong and all it beholds the adventurous traveler today.

Temburong is a living tribute to Brunei's dedication to preserving one of the world's most diverse ecosystem. The Ulu temburong national Park offers visitors a peek at a world untouched by man, from above or below the forest canopy. The simple culture of the Bornean long house community can also be seen – a complete and unforgettable borneo experience.

## BELAIT

Birthplace of the nation's wealth, Home of the oil industry. Brunei economic heartland.

Behing the glitter of Brunei's legendary wealth lies the district of Kuala Belait. Seat of the nation's oil and gas industry, producing the country's main export commodity. While the economy today is slowly diversifying to include manufacturing services and tourism, the real "gold " of Brunei flows deep below the ground in Belait.

To see where it all began, visit the town of seria to see rows of the affectionately-named "nodding donkeys" which pump the lifeblood of Brunei's economy from the oil-rich heart of belait. Seria's Oil & Gas Discovery Center provides an up close view of the inner workings of the nation's main industry, and the visually striking billionth Barrel Monument immortalizes the industry's accomplishments through contemporary architectural forms.
